

ASSESSMENT GUIDE

**Unit Code: ITEC630 IT Masters Project Part A (Project Management), Semester 1,
2026 Assessment 1 – Project Management Plan**

Assessment Artefact: Assessor generated summary as per rubric

Weighting [30%]

Why this assessment?

- Tests students' critical ability to apply and synthesise their project management knowledge and skills in deeper levels.

What are the types of employability skills that I will acquire upon completion of this assessment?

Skill Type	
Developed critical and analytical thinking	☐
Developed ability to solve complex problems	☐
Developed ability to work effectively with others	☒
Developed confidence to learn independently	☐
Developed written communication skills	☒
Developed spoken communication skills	☐
Developed knowledge in the field study	☐
Developed work-related knowledge and skills	☒

Assessment Overview:

Due date:	Week 5, Friday 5:00PM
Weighting:	30%
Length and/or format:	Maximum 2000 words
Learning outcomes assessed	LO1, LO3
Graduate attributes assessed	GA4, GA5, GA7
How to submit:	Canvas
Return of assignment:	After two weeks
Assessment criteria:	Rubric: see end of document

Context

This project management plan is used to properly manage a team software development project. While a complete project management plan needs to be submitted in Week 5, I expect this to be an evolving document throughout the entire software development process.

Instructions

This assessment task requires your team to prepare and keep updating a project management plan while the project is progressing. The plan should cover all the elements that are relevant to this project including the selected project management approach, project planning, and management of scope, schedule, risk, quality, communication, and people. It is also important to include peer evaluations of team members so that each member's efforts and contributions can be marked accordingly. A project management template is provided on Canvas for your reference, but it is up to each team to choose a format that is best for them. Peer evaluations will be managed by a software system, which will be explained and demonstrated at the beginning of the semester.

Your plan should be approximately 2,000 words in length and must address all core aspects of project execution, including but not limited to:

- The selected project management methodology (e.g., Agile, Waterfall, Hybrid)
- Detailed project planning and scheduling strategies
- Effective management of scope, risks, and quality
- Clearly defined communication protocols and stakeholder engagement
- Strategies for team coordination, task delegation, and performance monitoring

Structure

Refer to the rubric for details of mark distribution.

How do I submit?

Canvas

Helpful Website and Resources:

A project management plan template is provided on Canvas.

Who can help me?

- Associate Professor Walayat Hussain
- [Academic skills Unit \(ASU\)](#)
